Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

In spite of all the yearnings of men, no one can produce a single fact or reason to support the belief in God and in personal immortality.

Emersons' Law of Contrariness:
 Our chief want in life is somebody who shall make us do what we can.
 Having found them, we shall then hate them for it.

Age sits with decent grace upon his visage, and worthily becomes his silver
 locks; he bears the marks of many years well spent, of virtue truth well
 tried, and wise experience.
 -- Rowe

Who made the world I cannot tell;
 'Tis made, and here am I in hell,
 My hand, though now my knuckles bleed,
 I never soiled with such a deed.
 -- A. E. Housman

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
