Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Innovations in law, whether good or bad, spin an entangling weave far more
 often than they saw a straight stitch. Division of labor can make for great
 efficiency; too great a division of labor will wreck it.
 -- Michael Scully

43		28			35		44	
9	45	5		12	46	6	36	
7	37	38	30			31	10	

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
