Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Give us, O give us, the man who is cheerful in his work! Be his occupation what it may, he is equal to any of those who follow the same pursuit in silent silliness. He will do more in the same time -- he will do it better -- he will persevere longer. -- Carlyle

## Sudoku #2

There is not a man in the country that can't make a living for himself and his family. But he can't make a living for them AND the government, too, the way his government is living. What the government has got to do is live as cheap as the people.  
 -- Will Rogers

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
