Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Genius is the highest type of reason -- talent the highest type of understanding.
-- Hickok

*The income tax has made more liars out of the American people than golf has.
Even when you make a tax form out on the level, you don't know when it's
through if you are a crook or a martyr.
-- Will Rogers*

		10	11	12		13		14
	30			15			16	17

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
