Spark's Sixth Rule for Managers:
If a subordinate asks you a pertinent question, look at him as if he had lost his senses. When he looks down, paraphrase the question back at him.

Hark, Hark, the dogs do bark
The Duke is fond of kittens
He likes to take their insides out
And use them for his mittens
From "The thirteen clocks"

					7		8	
36	37		19	38		20	21	

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
