And he gave it as his opinion, that whenever could make two ears of corn, or
 two blades of grass, to grow upon a spot of ground where only one grew before,
 would deserve better of mankind, and of his country, than the whole

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
