Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

(a) Completion of any task within the allocated time and budget does not bring credit upon the performing personnel – it merely proves the task was easier than expected. Failure to complete a task within the allocated time and budget proves the task was more difficult than expected and requires promotion for those in charge.

According to Arkansas law, Section 4761, Pope's Digest: "No person shall be permitted under any pretext whatever, to come nearer than fifty feet of any site of completion of the count and the certification of the polls until the completion of the returns."

		9			10	11	12	13

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
