Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Scientific and humanist approaches are not competitive but supportive, and both are ultimately necessary.
 -- Robert C. Wood

The way to wealth is as plain as the way to market. It depends chiefly on two words: industry and frugality; that is, waste neither time nor money, but make the best use of both. Without industry and frugality nothing will do, and with them everything.
-- Benjamin Franklin

Sudoku #2

18	24	22	54	2		43		
25	46	36	47		13	48		
14			38		41	49	21	45
26	51		19		39	53	27	
23	52	32				42	28	44
	16	50	35		34		15	33
6	7	4	37		40			8
		5	17		20	31	29	30
		3		1	11	12	10	9

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
