Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Sorrow seems sent for our inaction, as we darken the cages of birds when
 we would reach them to sing.
 --Richter

Why was I born with such contemporaries?
-- Oscar Wilde

You are inclined to be careless and impractical, causing you to make the same mistakes repeatedly.

"My life needs editing."
-- Mort Sahl

... so long as the people do not care to exercise their freedom, those who wish to tyrannize will do so, for tyrants are active and ardent, and will do what themselves or the hands of their slaves are unable to do, and otherwise." -- Voltaire de Cleyre

	52	19	20	31	32	18	40	
23		28	45	5		46		41
3	1	4	38	53	54			
25	24		6		47		42	
			7	12	8	13	2	11
33	27		39	10	34			43
	16	15	55	48	9	14	17	
37	26	35			49	50	36	

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
