Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Mother told me to be good, but she's been wrong before.

*The mind of man is vastly like a hive: His thoughts are busy ever -- all
 alive: But here the simile will go no further: For bees are making honey,
 one and all; Man's thoughts are busy in producing gall, Committing, as it
 were, self-murder.
 -- Dr. Wolcott*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
