Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

May all your programs work the first time.

The intoxication of anger, like that of the grape, shows up to others, but hides us from ourselves, and we injure our own cause, in the opinion of the world, when we too passionately and eagerly defend it.
— Cotton

27		26		29	13	22	31 40
	33			25	41		4
	32	5	16	6	34	20	42 10
49	43			23	7		35

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
