Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

*What must be, shall be; and that which is necessary to him that struggles
is little more than choice to him that is willing.
-- Seneca*

*The story of man is the history, first, of the acceptance and imposition of
restraints necessary to permit communal life; and second, of the emancipation
of the individual within the scope of necessary restraints.
-- Justice Abe Fortas*

If one word does not succeed, ten thousand are of no avail.

Don't do it, unless you think you're in love.

3	17		21	32	39	45		
37	16	9		18	38	26	4	
27	46	10	22	40		47	15	
25			19	23	24		5	
	48	6		12	49	50	20	28
31		54	11	42		13	43	51
	41	55		7	33		52	53
		8		29	30		14	35

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
