*Work Rule: Leave of Absence (for an Operation) -- We are no longer allowing this practice. We wish to discourage any thoughts that you may not need all of whatever you have, and you should not consider having anything removed. We hired you as you are, and to have anything removed would certainly make you less than we bargained for.*

*Don't feed the bats tonight.*

*Atoms are made up of electrons and protons (protons are also neutrons). Fifty billion electrons placed side by side in a straight line would stretch across the period at the end of this sentence. Protons are heavier but take up less space. Such an idea is incapable of being absorbed by the human mind.  
-- John Lardner and Thomas Sugrue*

			50	4	39	12	31	27
40		14	33		41		13	35
42				15			16	34
17	9	22	43			18	24	

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
