Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

KrazyDad runs on electricity and caffeine. Want to buy me a cup of coffee?

*What is the worst of woes that wait on age? What stamps the wrinkle deeper  
on the brow? To view each lov'd one blotted from life's page, and be alone on  
earth as I am now.  
-- Byron*

*We laugh heartily to see a whole flock of sheep jump because one did so;  
might not one imagine that superior beings do the same by us, and for exactly  
the same reason?  
-- Grenville*

		21	50	43		14	36	37
4			11		5	6		
20		16		15	7	28	8	29

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
