Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

KrazyDad runs on electricity and caffeine. Want to buy me a cup of coffee?

What is the worst of woes that wait on age?
 What stamps the wrinkle deeper
 on the brow? To view each frowd one
 blatted from life's page, and be alone on
 earth do I can now.
 -- Byron

We laugh heartily to see a whole flock of sheep jump because one did so,
 might not one imagine that superior beings do the same by us, and for exactly
 the same reason?
 -- Greenville

20	16		15	7	28	8	29	

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
