Atoms are made up of electrons and protons (protons are also nothing). Fifty billion electrons placed side by side in a straight line would stretch across the period at the end of this sentence. Protons are heavier but take up less space. Such an idea is incapable of being absorbed by the human mind.

-- John Lardner and Thomas Sugrue

A fake fortune teller can be tolerated. But an authentic soothsayer should be shot on sight. Cassandra did not get half the kicking around she deserved.
-- Lazarus Long
