Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Habit gives endurance, and fatigue is the best nightcap.
-- Kitchell

Rule of the Great:
When people you greatly admire appear to be thinking deep thoughts,
they probably are thinking about lunch.

	50	17			51	52	53	41
42	54	43	31	21	44		45	32
1			6			2	3	

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
