Philosophy: unintelligible answers to insoluble problems.
-- Henry Adams

Every program has at least one bug and can be shortened by at least one instruction -- From which, by induction, one can deduce that every program can be reduced to one instruction which doesn't work.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
