Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

"Love is but the discovery of ourselves in others, and the delight in the recognition."
-- Alexander Smith

A great source of error is the judging of events by abstract calculations, which though geometrically true are false as they relate to the concerns of beings governed more by passions and prejudice than by an enlightened sense of their interests.
-- Alexander Hamilton

Sex is a natural bodily process, like a stroke.

It is better for civilization to be going down the drain than to be coming up it.
— Henry Allen

30	12		38	39				25
40	9		32	18		22	50	51

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
