The nice thing about standards is that there are so many of them to
choose from.
-- Andrew S. Tanenbaum

Don't let the fact that you can't do all you want to do keep you from doing
what you can do.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
