Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

*If you've already donated, thank you so much!
My family and I really appreciate your support.*

REASON: The Devil's harlot.
-- Martin Luther

Never drink coke in a moving elevator. The elevator's motion coupled with the chemicals in coke produce hallucinations. People tend to change into lizards and dance with serpents. And cigs has toxicity in the window. Additionally, you begin to believe that elevators have windows.

13	14	8	54		51	18	19	
9	15	20			16	10		

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
