Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

Leadership, at its highest, consists of getting people to work for you when they are under no obligation to do so.

There will always be some delightful mysteries in your life.

*Mere longevity is a good thing for those who watch Life from the side lines.
For those who play the game, an hour may be a year, a single day's work an
achievement for eternity.
-- Gabriel Heatter*

3		1	2					4
47	48			16	17	15	9	
34	33	11	18	10		14	13	12

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
