If I kiss you, that is a psychological interaction. On the other hand, if I hit you over the head with a brick, that is also a psychological interaction. The difference is that one is friendly and the other is not so friendly. The crucial point is if you can tell which is which.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
