Whereas in many branches of economic activity employment depends on the number of job openings available, in the public service, as also in the advertising business, social science investigation, and university administration, the level of unemployment regularly depends on the number of men available and devoting their time to the creation of job opportunities.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
