One of the greatest unsolved riddles of restaurant eating is that the customer usually gets faster service when the restaurant is crowded than when it is half empty. It seems that the reason for this is that the staff has to do, the slower -- Sydney J. Harris

Whereas in many branches of economic activity employment depends on the number of job openings available, in the public service, as also in the administration, the highest social position is reserved for the largest number of men available and devoting their time to the creation of job opportunities.

6	3				46		45	4		
40	41			35	34	43				

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
