"Well, it's a highly technical, sensitive instrument we use in computer repair. Before a word, it produces a scan, it scans exactly what it does. What it produces is a scan, it scans exactly what it does."  
-Jeff MacVelly, "Shoe"

"What's that thing?"

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
