A phenomenon known to anyone who has ever lit fires: You can throw a burnt match out the window of your car and start a forest fire while you can see two boxes of matches and a fire station in the sky. Start a fire under the car, logs in your fireplace.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
