*A physician is not angry at the intemperance of a mad patient, nor does he take it ill to be rattled at by a man in a fever. Just so should a wise man treat all mankind, as a physician treats a patient, and look upon them only as sick and extravagant.
-- Seneca*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
