It is true that if your paperboy throws your paper into the bushes for five straight days it can be explained by Newton's Law of Gravity. But it takes Murphy's law to explain why it is happening to you.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
