It is better to decide between our enemies than our friends; for one of our friends will most likely become our enemy; but on the other hand, one of your enemies will probably become your friend.
-- Bias

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
