To arrive at perfection, a man should have very sincere friends or ill inveterate enemies; because he would be made sensible of his good or ill conduct, either by the censures of the one, or the admonitions of the other.
-- Diogenes

3			1	28		44	41	
15	14	5	2	24	27			26

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
