It is impossible to make people understand their ignorance, for it requires  
 knowledge to perceive it; and, therefore, he that can perceive it hath it  
 not.

*Any great truth can -- and eventually will -- be expressed as a cliché -- a cliché is a sure and certain way to dilute an idea. For instance, my grand-mother used to say, "The black cat is always the last one off the fence." I have no idea what she meant, but at one time, it was undoubtedly true.*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
