You think it is a want of judgment that he changes his opinion. Do you think  
 it a proof that your scales are bad because they vibrate with every additional  
 weight that is added to either side?

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
