Most organizations can't hold one idea at a time. This complementary idea is always regarded as competitive. Further, like a quizzical pendulum, an organization can jump from one idea to the other, without ever going there. --Amnon Katz

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
