In all the many-colored worlds of the universe no single ethical code shows  
 a universal force: ... I am convinced that virtue is but a reflection of good

If the work of God could be comprehended by reason, it would be no longer  
 wonderful, and faith would have no merit if reason provided proof.

Social institutions will change only at the speed required to protect them  
 from attack -- slowly or fast to the degree required, but usually slowly. They  
 will put off change as long as possible.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
