*Occident: The part of the world lying west (or east) of the Orient. It is largely inhabited by Christians, powerful sub-tribe of the Hypocrites, whose principal industries are murder and cheating, which they are pleased to call "war" and "commerce". These, also, are the principal industries of the Orient.*

*Innovations in law, whether good or bad, spin an entangling weave far more often than they sew a straight stitch. Division of labor can make for great efficiency; too great a division of labor in lawmaking can instead create a crazy quilt.*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
