The problem of civil society is twofold: how to identify and select wise rulers, and how to assure that their wisdom will be used for the benefit of the ruled -- or of the common good as distinct from their private good.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
