It has been said that there are two theories of history: conspiracy and blunder. If there is some truth to that, it is surely equally true that blunder seldom receives all the credit due it as an explanation of complex events.

The way to wealth is as plain as the way to market. It depends chiefly on two words, industry and frugality; that is, waste neither time nor money, but make the best use of both. With them every other man will prosper.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
